Rice Mil Machine

ZNSB rice mill machine has attractive appearance, compact structure as well as the simple and safe operation. Combined rice mill mainly resolved some defects of other similar machines, such as the coarse chaff, air pollution in workshop. Besides, this SB rice mill machine is equipped with devices of chaff absorbing, chaff ejecting and chaff crushing. Combined rice mill could automatic separate chaff from the finished rice and cooperate with paddy husker, then process paddy into finished rice by once. So the finished rice has the following characteristics: much white rice, pure finished rice with low temperature, less husks, fine-chaff, high output, low consumption of power, and it's easy to keep workshop clean. ZNSB combined rice mill machine is indeed the ideal rice mill machine for paddy rice processing. This combined rice mill machine can be driven by electric motor and diesel engine.

Technical Parameter

Model	ZNSB5	ZNSB10	ZNSB30	ZNSB50
Capacity (kg/h)	500~600	700~900	1100~1500	1800~2300
Rubber roller (mm)	180x120	233x152	283x180	254x254
Power (kw)	5.5	11	15	22
Size (m)	0.86*0.692*1.29	0.76*0.73*1.7	0.97*0.76*1.76	1.07*0.76*2.2
Weight (kg)	130	180	320	630
